

LIZ - Light Industrial Zone

Introduction

The purpose of the Light Industrial Zone is to provide for light industrial activities within the District. The Light Industrial Zone is one of three industrial zones in the District Plan. The other two zones are the General Industrial Zone and the Heavy Industrial Zone. Collectively, these zones provide for a range of industrial activities in different locations in the District.

The provisions in this chapter are consistent with the matters in Part 2 - District Wide Matters - Strategic Directions and give effect to matters in Part 2 - District Wide Matters - Urban Form and Development.

As well as the provisions in this chapter, district wide chapter provisions will also apply where relevant.

Objectives	
LIZ-O1	Provision of light industrial activities Light industrial and space intensive extensive ¹ commercial activities are enabled where the adverse effects of these activities within the zone and on adjacent non-industrial zones results in an acceptable level of amenity values.
Policies	
LIZ-P1	Compatible effects Recognise and provide for light industrial and other compatible activities that can operate in close proximity to, and provide a buffer for, more sensitive zones due to their hours of operation and nature and limited effects of activities including noise, signs, odour, and traffic.
LIZ-P2	Amenity effects Adverse amenity effects within the zone, and on the amenity values of neighbouring zones are managed.
