MEMORANDUM RESPONDING TO QUESTION OF THE HEARINGS PANEL

ON BEHALF OF ANDREW CARR (SUBMITTER #158)

23 July 2024

1. INTRODUCTION

1.1 During questioning of the submitter, the Chair asked whether in light of the rezoning recommendation in Mr Buckley's s 42A report, the submitter was still seeking amendments to the proposed provisions for the Rural Lifestyle Zone, Subdivision, and Large Lot Residential Zone Overlay.

1.2 By way of background, these amendments were traversed in detail within my Statement of Evidence for this submitter, as part of the Stream 6 hearing (as well as being set out within the submission).

2. RESPONSE

2.1 I can confirm that due to the positive recommendation for rezoning the submitter's site, the submitter no longer seeks the amendments sought through Stream 6.
