| Comments at time of assessment:                       | Line of trees growing in close proximity to one another, planted by Sir Heaton Rhodes as a windbreak. Tree has a very one-sided crown due to repeated pruning for power lines on the road side of the tree. |           |                                    |              |           |
