

SARZ - Sport and Active Recreation Zone

Introduction

The purpose of the Sport and Active Recreation Zone is to provide for areas used predominantly for a range of indoor and outdoor sport and active recreational activities and associated facilities and structures.

The activities, facilities and structures that may occur in this zone include, but are not necessarily limited to, the following:

- Sports fields and artificial and/or hard playing surfaces;
- Aquatic centres, sports stadiums and multi-sport facilities, both covered and uncovered;
- Ancillary activities and structures such as spectator stands and/or seating, clubrooms, offices, custodial facilities, ancillary sport and recreation services, food and beverage and retail outlets, and conference facility and function rooms;
- Signs including for advertising and sponsorship purposes;
- Outdoor lighting (including security, amenity, and flood or training lighting);
- Vehicle access, parking, loading and manoeuvring areas;
- Fencing (including security fencing);
- Landscaping; and
- Various other public amenities.

It is anticipated some facilities may have a capacity for multi-functional use, co-location of compatible activities, and an ability to host local, regional, national or international events which provide entertainment to both residents and visitors.

The zone may also provide for ancillary commercial activities that support the core facilities though these are secondary to the primary sport and active recreation use.

~~The provisions in this chapter have been justified where required by a s77J qualifying matter assessment contained in the relevant section 32 evaluation report under the RMA.~~¹²

The provisions in this chapter are consistent with the matters in Part 2 - District Wide Matters - Strategic Directions and give effect to matters in Part 2 - District Wide Matters - Urban Form and Development.

As well as the provisions in this chapter, district wide chapter provisions will also apply where relevant.
